CHICAGO MARKETS INACTIVE.

THE JANUARY SPECULATION ENDED-NEAR OP-TIONS FALL BACK SLIGHTLY. [BY TELEGRAPH TO THE TRIBUNE.]

CHICAGO, Dec. 31,-There ought to be no disappointment on the part of produce speculators to-night because of the course of to-day's warket. Just such things as were generally predicted last Saturday Lappened. There were the explosion of cannon crackers and the flinging about of flour balls, and the almost total absence of outside orders; and there were, as a conse quence, weak, erratic markets. The "bull" operators aturday night predicted all these things; perhaps some of them hoped against hope that the market might not be as weak as they were themselves predicting it would be. It was just such a last day of the year as is always experienced. Wheat closed at night at \$1 02% for May, the option in which from this time onward speculation will centre. May corn stopped at 5834e February pork at \$1430; February lard at \$8 87½; February ribs at \$7 27½.

There is still much difference in opinion as to whether

The receipts of corn (745 cars) were large to-day, and 40 per cent, graded. The wheat market was without especial feature. There was a sharp raily in the foremon that sear the May option from \$1 02½ to \$1 03½, and that seared Hobbs and some others into covering a big line of shorts they had put out; but when business felloff toward the close, there was another drop, and at the bottom figures Hobbs and some of the others are said to have put out their lines again. The conservatives are advising purchases of every thing on the list. The Kent crowd is still predicting a great slump in wheat, and so is Lester. The feeling at highly was very weak indeed, in exactly that condition which usually precedes a sharp and surprising advance. Cash corn to-high is only 56 cents. Cash wheat only 54½. The deliveries of grain, especially if they are large of corn, may alarm some of the weak ones wednesday, but they will have no significance.

The pickers having caused pork to drop over a dollar a barrel and live hogs about a dollar a head, are actively at work again buying pork. Cudahy & Stevens were the most active to-day, and everybody sets them down as Armour's brokers. Che receipts of corn (745 cars) were large to-day, and

CONTESTING TAX ON MORTGAGES.

PHILADELPHIA, Dec. 31.-Upon application of a number of insurance, trust, and safe deposit compa-nies of this city, the Court of Common Pleas to-day granted special injunctions restraining the Board of Revision of Taxes from making any assessment of the personal assets, mortgages, moneyed capital, etc., of the companies for taxation for State purposes. The companies claim for taxation for State purposes. The companies claim that they make a return to the Auditor-General of their dividends, and pay a tax upon these dividends, and that they are not subject to any additional taxation. The State holds that the tax upon the dividends is paid merely for the exercise of the companies' corporate franchise, and that a second tax should be paid by them, the same as individuals, upon the property belonging to them.

WHY A RAIL MILL WAS CLOSED.

AN ACTRESS SNUBS A SNOB.

From London Truth.

An eminent financialist of social proclivities lately wrote to Mr. Mitchell to request him to inform Mass Mary Anderson that her presence would be welcome either at a dinner party, or as aguest later in the evening after it, and to request to be informed what the charge would be. Upon submitting the proposal to Miss Anderson, this young lady very rightly replied that she was not on hire for dining or evening party purposes. Never was a sunb more deserved. What would the financialist have thought if Miss Anderson had asked him to come to her house to be stared at in consideration of food and a cheque? This sort of purse-proud vulgar snobbishness must be put down.

The occasion of the spurt was the calling-in of some large loans in preparation for Wednesday's disbursements for interest and dividends. The closing rate was 2½æ3 per cent.

late in coming forward to market; but some very good stock was received from Virginia and a fair supply of State and Canada Lambs has been in the pens during the last thromouths. Prices have averaged better, taking the whole season tozelher, than last year. The Hog crop was much in excess of last year, and while prices were but a little lower for the first four months the averaged for 1883 is fully I cont per pound less than in 1882. Calves have sold well all the season and at prices more uniform than ever before recorded; and the average for 1883. The trade in Milch Cows has been more limited than in any of the proceding ten years, and this branch of the Live Stock business continues to dwindle in importance years for 1883 were 33.537 head in excess of 1882; but as the number of these experted alive and dressed in 1883 exceeded those experted in 1884 by 83.335 head, there was an actual failing off in the number slanghtered for home consciption of 48.828 head, or about 1,000 per week. To account for this deficiency it must be remembered that about 25 carloads of Western Dressed Heef have been received apon an average each week in New-York and at least 15 carloads in nearly eithe such downs which formerly free Whiri supplies from the stock yards, making the total receipts of Western Dressed equal to 1,500 head per week, so that there has been an actual increase in the amount of beef consumed as would naturally be expected. The receipts of Milch Cows were 4,205 head, a failing off of 775 head as comparing with last year. The receipts of Calves were 195,638 against 1,313,185 head last year.

The lable of shipments shows that more Live Cattle and Dressed Heef were experted from New-York than in any year except 18-9, and more Dressed Beef than in any proceding year, while the number of Live Sheep seat abroad was only executed in the year 1850. The revisal of Dressed Heef than for a reprised to this market may be mentioned the car of refrigerator beef received from St. Dut is not winter and the shipment of a carload
